Man, 38, Charged With Office Robbery

Two Persons Victims Of Bandits, One in Motel, One at Home

Two persons were victims of armed robberies in the Quad-City area this week, and a St. Louis man was arrested in connection with the holdup of the Western Union telegraph office here on May 20.

Charged with armed robbery at 11:35 a.m. Wednesday was William Jack Dupree, 38, of St. Louis, who was arrested by Venice police at 12:05 a.m. Tuesday at 1000 Logan street and was turned over to Granite City police.

In the holdup, in which the bandit awaited the return of the Western Union office manager, a total of \$100 and 20 money order checks were taken.

Police said Dupree tried to cash one of the checks at St. Louis' motel. Chief of Detectives Joseph Kaselick credited cooperation by Venice and St. Louis police in leading to the arrest.

Holdup at Motel
An armed bandit escaped with \$300 and other items in the robbery of Henry Yearly of Lexington, Ky., a guest at the Land of Lincoln motel on West Chain of Rocks road near Route 3, at 1:15 a.m. Tuesday.

In addition to the money the holdup man left with an electric razor, transistor radio and a brief case owned by Yearly and with a portable television set owned by the motel.

Yearly, a civilian employee at the Lexington Blue Grass Army Depot, told sheriff's deputies that the bandit knocked on his door and called "telegram for Room 30."

Upon opening the door he was accosted by the man, described as a 30 to 35-year-old Negro, 5 feet, 7 inches tall, of slender build and wearing a white hat, who pointed an automatic pistol on him, ordered him to open the door and lie face down on the bed.

Yearly said the man looked through his wallet, brief case, and luggage and threatened to kill him when he was finished. After ransacking the room, the bandit used electric cords from a TV set and lamp to tie his hands and feet to the bedposts, and then left with the merchandise. The brief case was of brown leather and contained the initials "H. Y."

Two of Yearly's associates also employed at the Lexington depot who were staying at the motel heard him for help. Finding the room locked, they drove to the service station at the intersection and phoned the Madison county sheriff's department.

By the time they returned,

Plan Corporation To Develop An Industrial Park

Formation of an industrial development corporation was authorized by the board of directors of the Chamber of Commerce of the Tri-Cities at its June dinner meeting Tuesday evening at the Rose Bowl.

Purpose of the for-profit corporation will be to develop an industrial park in the Quad-City area. Sites for possible development currently are under consideration.

The vote was taken on the basis of a recommendation by the Chamber's Industrial Development Committee, of which Keith Tobey is chairman.

A meeting of the committee is to be held late this week or next week to carry out the incorporation process.

The private corporation will be separate from the Chamber and will determine its own policies. The objectives will be to encourage further local economic development.

GC Council Calling For Tours of Alleys And Written Reports

An ordinance expanding the duties of the city inspection department to include monthly inspections of all alleys and twice-a-month reports to the council on dispositions of all complaints was placed on first reading during Monday night's Granite City council meeting.

Protests were raised by the mayor and several aldermen on the method in which the ordinance was presented to the council by Alderman Parmley, chairman of the Ordinance committee.

Mayor Partney commented that while he thought the ordinance would be beneficial, he wanted to know where it came from and who prepared it, since the city attorney had not. Alderman Boker said he thought the ordinance was "impossible."

"We have too many alleys for the city inspector and his assistant to inspect every month," Boker said. Alderman Rutledge said he would like for the legality of the proposed ordinance to be determined first by the city attorney.

He called for deferral action, since Parmley had submitted the ordinance with a motion for suspension of rules and immediate adoption.

Motion Withdrawn
Parmley agreed to withdraw the suspension of rules motion and present the ordinance for first reading to give time to aldermen wanting to consider the proposal, and it was placed on first reading by a 12-to-3 vote. The only alderman absent was Emerald Dawes, who is on vacation.

Voting for first reading were Nonn, Whitmer, Boyd, Dallas, Moerlein, Parmley, Robertson.

RECREATIONAL POSSIBILITIES OF Horseshoe Lake as a state park being pointed out yesterday by H. D. Karandjoff, local banker and chairman of the Horseshoe Lake State Park Commission, following approval of two bills this week by the Illinois House of Representatives.

Budget Progress for City Slows to Halt

Budget building by Granite City council members is expected to be a slow process again this year.

Other than adding \$55,000 for street improvement projects — authorized at the last two council sessions — no steps have been taken toward final adoption.

The initial budget proposal was submitted to the council at the May 28 meeting last week by Mayor Partney, and a special budget session was called for the following Wednesday by Alderman Moerlein, chairman of the Finance committee.

Only nine of the 16 aldermen were present at the session, and nothing was done. No budget actions were taken at this week's session other than to propose funds for painting the city hall building and to approve street work from general funds amounting to \$31,000 of the \$55,000 total.

No Special Session
Moerlein advised the council last week that he would be going on vacation, and no arrangements were made for any special sessions for the budget, even though there is no regular session next Monday night.

The budget proposed by Mayor Partney amounts to \$2,912,148, up about \$400,000 over last year's total. The budget does not include any amount for special improvements to streets, but a note is added that \$307,000 could be expended from motor fuel tax funds for the street resurfacing and curb and gutter projects formerly listed as special improvements.

This portion of the mayor's proposal has been ignored. In the initial budget, \$32,000 has been added for employee pay increases.

All figures are subject to change by the council, and final action is not expected until late July, even though the new fiscal year began May 1.

During last week's unsuccessful budget caucus session, it was noted that several city departments had not yet completed departmental budget breakdowns.

Council members also are faced with the possibility of tax rate and levy protests on June's budget when tax bills go out in the near future.

A breakdown of the mayor's budget proposal follows, list (Continued on page 11, col. 1)

The tank will be 28 feet in diameter and 64 feet, 10 inches high. At the extreme end of the building at 75 feet, the contractor is the Pittsburgh Des Moines Steel Co. of Chicago and the architect is American War Works Service Co., Inc. of Belleville.

State Would Provide \$2,000,000 to Purchase Horseshoe Lake

Quad-Cityans' hopes for development of Horseshoe Lake as a state park were bolstered this week as the Illinois House voted 139-to-0 Monday for two bills that would appropriate \$2,000,000 to buy the 1700-acre lake and designate the area as a state park.

The bills are expected to go to the state Senate next Thursday, and Quad-Cityans are being requested to write letters to newly elected State Senator Merrill Ottwein, urging Senate approval.

H. D. Karandjoff, local banker and chairman of the Horseshoe Lake State Park Commission for the past several years, said he talked to the senator Tuesday, and that Karandjoff would like to have letters to show the backing of local residents for the development of a park-recreation site.

"Most Encouraging"
"The action in the House is most encouraging, and we're hopeful the Senate will respond as enthusiastically," Karandjoff commented. He said Quad-Cityans can write to State Senator Merrill Ottwein, State Capitol Building, Springfield, Ill.

Local civic and business leaders are mailing letters to the senator, urging Senate approval of the bills, Karandjoff, who has led the Horseshoe Lake State Park committee of the Tri-Cities Chamber of Commerce, said C. E. Blankenship, president, is among the letterwriters.

The bills would authorize a \$2,000,000 appropriation to the State Department of Conservation, headed by William Rutherford, director, for purchase of the lakebed and adjacent property, and Karandjoff pointed out that with state financing, federal funds also are a possibility.

Benefits to the local metropolitan area could be two-fold: that the state park is planned for an eventual 7000-acre State Park and that the plans call for dredging the lake to provide a larger basin for surface water drainage for the immediate area.

Karandjoff explained the dredged materials from the lake would be used to fill low ground around the lake to provide a roadbed for a perimeter road.

Gov. Richard B. Ogilvie has called for dredging the lake out of this area and has indicated he would support measures for its development as a state park.

Largest Lake in Area
Horseshoe Lake is the largest body of water in the area and although privately owned has been a haven for boaters and fishermen.

Tower Falls on Power Line; Main Drilled

Power service for about 1300 West Granite residences was cut off for 16 minutes yesterday afternoon when a 120-foot tower at 22nd street and the Railroad tracks was pulled against a high power line of the Illinois Power Co. The incident occurred about 3:30 p.m.

The tower was pulled against the power line, it was reported, when a truck owned by the Paul Seabold Concrete Co. was lowering the truck bed and snagged the guy wire of the radio tower. Instead of breaking, the guy wire pulled the tower over against the power line, short circuiting service to the West Granite area.

Carl Mathias, manager of the Illinois Power Co., said the tower was lifted immediately and service restored within the 16-minute period.

The incident was followed 15 minutes later by a second mishap in which an Illinois Power Co. crew, drilling a hole for relocation of a utility pole in the 3200 block of Princeton drive, drilled through a water main.

The main was repaired within 45 minutes by the East St. Louis & Interurban Water Co. Service to the Princeton area was disrupted for only about 30 minutes.

Underprivileged, Handicapped to be Guests at Circus

Warren Decatur, president of the Tri-City Shrine Club, announced today the club will sponsor free buses and tickets as well as entertainment and spending money for the underprivileged and handicapped children of the Tri-City area this Saturday and Sunday. All the children will be transported to the Shrine Circus to be held in Belleville this weekend, June 7-8.

Joining the bus caravan, as well as furnishing buses, will be the Madison and Venice Lions Club along with various church organizations.

On Saturday, eight buses will participate in picking up the children at various locations on a meet at Sween street and McCambridge avenue in Madison for departure. Attendance on the bus will include one adult for each ten children plus additional Shriners who will accompany the caravan. They will leave promptly at 12:30 p.m. and will be escorted by the Alnad Provost Guard.

On Sunday, two additional buses will take handicapped children to the circus, also escorted by the Alnad Provost Guard Unit. One of the buses was donated by the F. W. Woolworth employees and will be loaded in front of the store.

Thirty-eight businesses and individuals in the area contributed to the two-day excursion for these children.

Tickets for the Shrine circus are available from any Shiner or from the following business locations: Schermer's Market in Madison; Glick's Department stores, both in Madison and Bellemore Village; Graham's Book store; Ervay's Dog and Saus; Maryland Barber shop; Bolinger Upholstery shop; Don's Barber shop, Pontoon Beach; and Hundley Pontiac.

Kirkpatrick Tots To Attend Circus

Local Shriners will take 100 Kirkpatrick Homes youngsters in buses Saturday to the Alnad Temple Shrine circus in Belleville. It was reported at the June meeting of the Granite City Housing Authority Tuesday evening.

Bids will be sought in July on supplying propane gas for all Granite City housing projects in 1969-70 and in August on providing fire and comprehensive insurance for all apartments during the next three years, commissioners noted.

Blacktopping of the 75-foot gravel parking lot created at Nameoki and Palmer avenue for Kirkpatrick Homes residents has been completed. Executive Director David Morgan reported the project.

Installation of a Granite City stormwater line through the Kirkpatrick area began two weeks ago, a discussion brought out. Traffic within the project has not been affected, but some detours will be necessary during the next several weeks.

Chairman Ernest E. Veihl Jr. presided at the meeting, held at the Kirkpatrick office.

Classes will be held Monday through Friday from 1 to 2 p.m. and from 3 to 4 p.m., Brown said.

The tumbling and gymnastic program for children in the first through 12th grades also will start Monday at the Wilson Park rink pavilion.

Sessions for boys and girls will take place on Mondays and Wednesdays from 9:30 to 11:30 a.m. A special class will be held each Tuesday from 9:30 to 11:30 a.m. for mentally retarded youngsters, Brown advised.

In another presentation, Leonard Jones was awarded a Cahokia Mound Council "Oscar" for his work with the Cub Scout Packs and Boy Scout Troop at Mitchell.

Games provided entertainment and a "pie-in-the-face" contest was held. Chosen were Gary Campbell, Dewey Odermeyer, Ron York, Bing Hirst, Leland Jones, Carl Aldridge, Robert DeLorie, Rollin Henn and Ray Gaudette sr. Each received a box of candy.

Taking part in the colors ceremony were Gary Busby, James Stirling, Marvin Woods and Herman Jones of Troop 41.

Ex-Madison Resident Dies in Cleveland

John Charles Lubak, 70, a former Madison resident for 36 years, died yesterday morning in a Cleveland, Ohio, hospital following a brief illness, according to word received here.

Lubak moved to Madison about 1917 and lived here until about 18 years ago. He formerly worked at the old Nesco plant. He leaves his wife, Mrs. Mary Lubak; a daughter, Mrs. Bernadine Brina, and three other brothers, Fred, Joseph and Gus, all of whom live in California.

Funeral services are to be held in Cleveland Saturday.

Youngsters Driving Minibikes Illegally

"There are some Granite City youngsters who are illegally driving minibikes on city streets and public property," Dusan Gagich, juvenile officer, complained this week.

He said parents are buying the small bikes which contain motors for their 13 and 14-year-old children, but operators licenses are required to drive them.

Homade cycles, some of which have lawn mower motors, also require driver's license, and state license plates are required, he added.

Firemen Called on Five Minor Alarms

Firemen responded to five minor fire alarms this week, with damage listed at only one.

Trash burning in the alley spread to a garage-apartment building in the back yard of the home of Andrew Gasparovic Jr., 2150 Edison avenue, at 8:30 a.m. Tuesday, causing damage of \$700 to the building and \$200 to the contents.

At 4:55 p.m. Tuesday, youngsters set fire to lumber on a vacant lot at 3200 Newell drive. A grass fire at the old cemetery behind Kirkpatrick Homes was extinguished at 5:20 p.m. Tuesday.

A Milam Corp. trash truck, with a burning load went to the Nameoki road station about noon on Monday. A small amount of gasoline in a wrecked auto burned while it was in the bailer at Lipsett Steel Co. at 11:10 a.m. Wednesday.

Auto Window Broken

Howard Painter, 2927 Buxton avenue, reported at 8:10 p.m. Tuesday that vandals broke the left window of his auto with a golf ball while the car was parked in front of his home in the afternoon. The ball was found on the front seat of the car.

Area Traffic Fatalities Down 57% From '68 Period

The Quad-City area during May marked up the second consecutive month in which no fatal accidents have occurred, although the number of accident injury cases increased slightly over those reported during the previous month of April, traffic statistics disclosed today.

A total of 228 accidents was reported in the Quad-City area during May with 132 persons injured, but no fatalities. During April there were 241 accidents with 125 persons injured and no fatalities.

A check of traffic records back to 1963 failed to show any similar two-month period without a fatal accident. In 1968 and 1967 there was not a single month without at least one fatality.

This year's fatality list still stands at six dead in traffic crashes resulting from four fatalities in January and one each in February and March. At this time last year, however, 14 persons had been killed in traffic crashes. Last year's traffic deaths during the first five months of the year included one in January, three in February, five in March, three in April and two in May.

Down 57% While this year's fatality record shows a definite drop by 57% below last year's level, the number of traffic accidents this year has jumped considerably over the number of crashes at the same time last year. The total of 228 accidents during May increased to 1112 the total number of mishaps reported to Quad-City authorities this year. This is an increase of 142 accidents or 14% over the same five-month period of 1968.

The number of injury cases, however, is up only slightly over last year's figure. The total of 132 injury cases during May brought the five-month total this year to 683, which is an increase of only 21 over the total of 542 for the same period last year.

Kiwanis to Induct, Elect Officers Monday

Members of the Granite City Kiwanis Club discussed plans for induction of new members and election of officers to be held at a dinner meeting Monday at the Rose Bowl during their meeting Monday.

Hansen, Not Harrison

In the identification of graduates of the 1919 classes of Granite City high school in Monday's issue, the name of Mrs. Mildred Champion Hansen of Signal Hill was in error. She is the wife of Dr. William Hansen, and they attended last week's class reunion dinner at Sunset Hill Holiday Inn. Her name was erroneously listed as Harrison.

Auto Hits Stop Sign

While he was turning off Madison avenue onto 28th street, Clarence Henry, 2736 Grand avenue, reported that a youngster ran upon the rear of his auto, and when he looked in the rear view mirror, he missed making a complete turn and struck a stop sign.

New Scuba Diving Course To be Offered at YMCA

A new course in skin and scuba diving instruction will be offered by the YMCA in cooperation with the Bubblemasters Scuba Club of Granite City, it was announced yesterday by Neil Winters, club president.

Scheduled to start by July 1, the training course will be limited to ten persons, with registrations accepted on a first-come, first-serve basis, Winters said. Additional information may be obtained about requirements and fees at the YMCA reception desk, or by calling instructor Jack Addison, at 877-5688.

A total of 56 Bubblemaster divers and their families attended a competitive dive and weekend outing at Bull Shoals Lake, Mo., along with 35 members of the Alton Masketers Scuba Club and divers from a recently organized scuba group in Cahokia.

During the three-day event, 16 student divers completed their open water graduation dives and received diver's certification. All are recent graduates of an instruction program taught at the Granite City YMCA by qualified Bubblemaster instructors. Thirty-four students successfully completed the course, most of whom are now members of the local diving club.

Spearfishing contests were conducted during the weekend, with Jim Johnson of Granite City, a Bubblemaster member, spearing the largest fish—a 18½-pound carp—to win the championship trophy. The catch was the largest carp speared in Bull Shoals Lake in recent years, and the second largest fish ever taken by a club member.

Edward Duffin of the local club won the championship last season with a 22½-pound carp. He also speared an 11½-pound carp on the latest dive, which resulted in winning the Bubblemasters traveling trophy in a three-club contest.

Other activities enjoyed by members of all three diving clubs, included underwater exploration and photography and a barbecue picnic.

Winters said that numerous diving trips are planned for the summer months and a social event, an excursion on board the Steamer Admiral, also is being arranged. Several members also are making plans to travel to the Bahamas Islands on a diving trip, the club official reported.

Inter-City Baseball League also has scheduled for this Sunday contests sending Granite City Steel Credit Union to Maryville and the Collinsville Motormen to East Alton.

The only other meeting of Mercer and Pocahontas this season resulted in the Braves edging the Granite Cityans 5-4.

Credit Union is still winless even with the superb batting of Larry Dillard (.375, fourth best in the league) and the fine pitching of Steve Lengyel (2.78 earned run average, fifth best in the league).

The current Inter-City League standings: Pocahontas 4-1, Collinsville 4-2, East Alton 3-2, Mercer 3-3, Maryville 2-3 and Credit Union 0-5.

Applications Being Accepted From Deer Hunters in Illinois

Sportsmen planning to hunt deer with a bow and arrow or on their own property with a rifle may now through June 20 apply for permits. Applications for landowner permits must be approved by the conservation officer in the county where the land is located.

Applications from sportsmen other than landowners and bow hunters postmarked prior to June 23 will be returned. These permits will be processed beginning June 23.

The rifle hunting season is divided into two three-day weekends. The first begins Friday, Nov. 21, and ends Sunday, Nov. 23. The second is from Friday, Dec. 12, through Sunday, Dec. 14.

The first portion of the bow season opens Wednesday, Oct. 1, and ends Sunday, Nov. 16. The second portion is from Monday, Nov. 24, through Wednesday, Dec. 31, excluding Dec. 31-4.

Title Game Tomorrow
The winners of today's morning games will battle tomorrow at 9:30 a.m. Today's afternoon winners will compete Friday at 11:30 a.m. The state title match will occur at 4:30 p.m. Friday. Madison high school com-

peted in the state baseball tournament in 1942. It was the only team ever to attend the tourney without a coach; the boys coached themselves.

They won in the quarterfinals but were shutout by Oak Park in the semifinal game.

The Granite City Warriors, under Lawrence McCauley, now principal, played in the 1948 and 1950 tourneys.

GCHS State Champ In 1948
The Warriors were state champions in 1948. In the title game, Warrior Carl Linhart set a record of two triples, a mark which has been tied only once, in 1953.

In the same game, Warrior shortstop Jim Tadich tied a record, which still stands, for most errors (3) in a title game. But his other contributions more than made up for the miscues.

The 1948 all-tournament state team had five Granite Cityans: Art Borchers, second base; Jim Tadich, shortstop; Conrad Champion, leftfield; Carl Lin-

hart, centerfield and Rudy Diak, pitcher.

In 1950, GCHS lost a quarterfinal game to LaGrange-Lyons 10-4.

State Baseball Tourney Recalls Past Warrior, Trojan Exploits

The team that plucked Granite City from the state baseball title race, Alton high school (21-5), met Highland Park (13-9) in the Illinois state tournament quarterfinals at Peoria at 11:30 a.m. today.

A Granite City team, coached by present Athletic Director Joe Fedora, in 1953 lost only the championship contest to finish second in the state.

Alton last visited the state tourney in 1966, when the Redbirds won a quarterfinal game but were edged out in the semifinals.

Other games slated for today at Peoria are: Newton vs. Chicago Schurz, morning; and LaSalle-Peru vs. Naperville and DeQuoin vs. Pekin, afternoon.

The winners of today's morning games will battle tomorrow at 9:30 a.m. Today's afternoon winners will compete Friday at 11:30 a.m. The state title match will occur at 4:30 p.m. Friday. Madison high school com-

SIU-SW will open at home against Blackburn College on Sept. 22. Next, the Cougars will travel to Akron, O., to take part in Akron University's three-team tournament Sept. 25 and 27. Third team in the meet will be Indiana University.

On Oct. 4, the Cougar soccer team will take to the road again to play Lewis College of Lockport, Ill., on Oct. 11, SIU-SW will meet the always strong

Quincy, Ill., College team there. After these rough tests on the road, the Cougars will return home for one game against Harris Teachers on Oct. 15. On Oct. 18, Greenville College will play host.

On Oct. 21, a strong Eastern Illinois University team will be at SIU-SW and a week later, on Oct. 28, Washington University of St. Louis will be here.

A newcomer to the Cougars' soccer schedule, the University of Illinois Chicago Circle, will play at the Southwestern campus Nov. 1. Guelker's charges will wind up their season on the road when they travel to St. Louis to play the Rivermen of the University of Missouri at St. Louis Nov. 8.

As a special attraction, "Crash" Wilson of Dallas, Tex., will perform his nationally famous stunt of driving through a wall of ice while operating an ordinary car.

'Crash' Wilson to Crash Into Ice at Speedway Tomorrow

Jim Fleming, driving the Jimmy Brennan Chevy Super-Modified, will attempt to extend his winning trophy heat performance of last Friday through the feature event scheduled for tomorrow night at the Tri-City Speedway, 5100 Nameoki road.

Due to rain last Friday, the Super-Modified division and Semi-Late Model division features were postponed.

Tomorrow, these features will be first on the racing program, immediately following the 7:30 p.m. time trials.

As a special attraction, "Crash" Wilson of Dallas, Tex., will perform his nationally famous stunt of driving through a wall of ice while operating an ordinary car.

Has-Beens Are Not Diamondmen Decide

The Raiders A.A. topped Jim Green Construction 10-4, the Has-Beens pounded Diamond Plating 8-5 and Keith's Lounge Rebels outdid Ralph & Charlie's 14-1 in Eastern division softball action Monday night at Worthen Park.

For the Raiders, the lucky number was six-six runs on six hits in the sixth inning to yell about were Kent Taylor 4-4, Tal Flak 3-4, Bill Birtley 4-4 and Dale Kirksey, 2-3.

The Rebels used team coordination to trounce Ralph & Charlie's. Rebels with the most to yell about were Kent Taylor 4-4, Tal Flak 3-4, Bill Birtley 4-4 and Dale Kirksey, 2-3.

The Has-Beens scored twice in every inning except the beginning two innings. Superior Has-Been hitters were Dewey Melton 2-4, Charles Chapman 2-3, Jim Corbett 2-3, Larry Melton 2-4 with a double and Paul Hollis with a homer.

B & E opened its game with a ten-hit, eight-run inning. B & E batters with the most wood on the ball were Bill Brown, 3-4 with two homers; Larry Gilmore 3-4; Dan Timko 3-5; Barry Lloyd 3-3; and Ron Hopper, Bob Lewey and John Van Buskirk, 2-5.

Except for Branding's Jim Dorogahay with 4-4 and Ron Branding with 2-4, all the multiple hitters were Stealers: Jim Peppers 2-4, Bud Parks sr. 3-3, Gene Livingston 3-4, Chuck Fellmeyer 2-3, Ron Profit 2-3 with a triple and Bud Parks jr. with a homerun.

W & W outfit Caton, but Caton, hit more often in clutch situations. Caton's John Mozaros was 2-3; Tom Ferguson and Mike Welser, each 2-3 with a double; Gary Golden 2-4 with a double and Wad Hampton 2-3 with a double; and Harry Gates, 2-4; Jerry Harper 2-3 with a double; and Rick Thompson, a double.

Patton With ISU in College World Series

Illinois State University of Bloomington-Normal, competing this week at Springfield, Mo., in the NCAA College Division Regional, has named a member of its 23 baseball letter winners Greg Patton of Granite City. The NCAA is the National Collegiate Athletic Association, using the Pacific Regional.

Patton, an infielder, was among those seeing action as the Illinois State Redbirds. Southern is the Atlantic Region.

ISU takes a team batting average of .310 into the tournament but is without leading hitter Guy Homoly, 412, who has a broken leg.

Coach Duffy Bass has chosen the six starting pitchers Bush Capra, 6-2 with a 1.52 earned run average, a senior, and Paul Sperry, 5-0 and 1.20, a junior.

Eights Are Wild in West West Softball Division at Worthen
Tom's Left Over topped Andria's Liquors 18-8, Friederich Heat & Air defeated the Inn Between 8-6 and the Cardinals tilted Pieper's 8-3 in Western division softball at Worthen Park Wednesday.
Even if Andria hadn't earned seven times, it still was unable to match Tom's 24 hits.
For the winners, Terry Yeager was 2-3 with a double and home run, Chuck Wilkins 2-3, Doug Mudd 3-4, Craig Signal and Al Kopic each 3-5 with a double, Ron Welch 3-5 with a triple and Dean Cridler 2-4. For the losers, Pat Schuman had 2-4 with two triples, Rick Freumbach 3-4 with a double, Al Lewis 3-3 with a double, Barry Reedman 2-4 with a triple and Randy Sigle 2-4.
Despite ten hits each and Friederich's seven errors in Inn Between's miseries, consistent sequential hitting from Mike Burris, Phil Hartman and Robin Teague defeated the Inn squad. Best batters for the losers were Dan Towery, Jeff Rains and Bob Wheatley.
Except for the final score and Pieper's surplus of errors, the game with the Cardinals was evenly matched. For the victors, Dave Pertwee was 2-4 with a double and triple, Dean Johnson 2-4 and Grayell Slusher hit a triple. For Pieper's, Larry Bradman was 2-3 and Dave Wilburn doubled.

License Charge Filed
John K. Early, 322 Colgate place, was ticketed at 8:15 a.m. Wednesday at St. Clair and Jill avenues for driving without a valid license.

CO-CHAMPIONS. The Coolidge junior high school baseball Braves completed the 1969 season with a 6-2 conference record to share championship honors with Roxana junior high. From left, front row: Chuck Kraus, Rick Pehn, Jerry Duncan, Jeff Worthen, Joe Wallace, Ken Lyerla, Jack Scarboro.

Legionnaires Win 13-1 After 8-7 Heartbreaker

American Legion Post 113 bombed Highland 13-1 Wednesday at Wilson Park after the Granite Cityans had seemingly been "robbed" 8-7 in their league opener Tuesday evening at Collinsville.
Eagle-eyed hitter Jim Becker started pitching against Highland. He allowed two hits in the first inning, including Highland's only run.
Becker served not another hit, but because of arm trouble in years past, Jeff Boyles relieved for the last two innings allowing one hit.
Together, they struck out nine and walked one.
Opposing pitchers Blumer and Michaels had no success against Granite City.

Four Hits By Becker
Contributing to the 13-1 total were Becker with four, including a double, Mike McGovern three and Gary Simpson, Don Harris, Dave Evans and Butch Wolowitz, two each.
A new fence is to be erected at Collinsville's Fletcher Field, but in the interim the field is bounded only by steel pipes. Temporary ground rules require the umpires to estimate whether a hit ball would bounce off the fence or not.
Because of a "sleeping" umpire, the plate umpire was forced to decide a strongly-disputed Collinsville hit. From the great distance, he ruled a homer for Collinsville's four-run fifth inning.
On three other occasions there were controversial rulings, each time in Collinsville's favor.
For GC, Jeff Boyles and Don Rains pitched, with Roger Beabe catching. Pitching for Collinsville were Sonnenberg.

Unexplained Dispute At Local Steel Mill
Pickets were at the Granite City Steel Co. gate at 16th street and Madison avenue Wednesday in what was reported to be a dispute over disciplinary action. Neither union representatives nor company officials would discuss the matter.
Thomas Griffin, subdistrict director of the United Steelworkers who represents Granite City Steel Co. locals, said he was unaware of the situation and said if there was any walk-out it "certainly is unauthorized because we are working under a contract." Company officials declined any comment.

Traffic Signal Charge
Wade F. Campbell, 14 Briarcliff, was ticketed on a traffic violation charge at 12:35 a.m. today at 27th street and Madison avenue.

Trades Group to Hear Talk by U. S. Mediator

Robert Mize, federal mediator with the U. S. Mediation and Conciliation Service at St. Louis, will speak at the June 18 meeting of the Tri-Cities Trades and Labor Council, delegates were told in a regular council meeting last night.

All delegates were urged to attend the session at which Mize will outline details of contract negotiation, issues of job seniority, grievance procedure and other pertinent points involved in drafting union contracts. Edwin Reiske, secretary of the council, announced that Mize also is available to speak before union locals in an effort to better inform union members on contract procedure.

Reiske announced that the labor council will decide at the June 18 session whether Quad-City area labor unions will participate in a Labor Day parade. Four labor locals have committed their unions to participation, Reiske said, but much greater cooperation will be needed to justify parade plans. The Trades council in the June 18 meeting also will nominate officers for the annual election in the July meeting.

MORE ABOUT Expanded

Poulos, Green, Jarret, Morien and Schuler, Opposed were Rutledge, Basarich and Boker.

Basarich had remarked before the roll call vote that he preferred to inspect his own file complaints directly to City Inspector Jack Fricker and his assistant, Lawrence Drake.

Under the proposed ordinance, the inspection department would be required to list all complaints received in the office and to furnish a written report to the council twice a month, listing the complaints and their disposition.

Also a monthly written report would be submitted to the council on conditions in every alley in town.

Committee Proposal
In the discussion before the vote, Mayor Parmley asked who had presented the ordinance. Parmley said it had the recommendation of the Ordinance committee.

"Doesn't the Ordinance committee use the services of the city attorney any more?" Parmley asked.

Parmley replied that the committee had prepared the ordinance which amends the city code governing the duties of the inspectors.

Whitmer complained that the ordinance "is hitting the council cold." He added that there should be some time allotted to analyze the proposal. "I believe the council is trying to do right this year, but this is something different."

In withdrawing the motion for immediate passage, Parmley told council members they now would have two weeks to study the proposal.

Alderman Robertson told the Press-Record following the meeting that several of the aldermen were receiving complaints that individual complaints to the inspection department were not getting the proper attention. "It's our idea that written reports should be submitted to the council by the department," he explained.

Under the present city code, the inspectors are designated as enforcing officers of the health department and are required to make necessary inspections.

The inspectors also are responsible for the enforcement of all licensing and other regulatory ordinances of the city making the inspections required by the ordinances to determine if licensing requirements are being followed.

In addition, the inspectors are to supervise collections of garbage and refuse.

Record Steel Coil Sift Here

A 20-ton coil of steel, largest ever trimmed in width in this region, was slit yesterday at the new Caine Steel Co. plant in Madison.

The milestone was reported by Robert Lowenstein, general manager of the steel division, while taking Madison Rotarians on a tour of the plant, located in the Stephen Maerz Industrial Park.

The division cuts steel rolls to specified widths needed for later insertion in automatic presses for manufacture of tin housings, steel inlets in aluminum pistons and other products. Width tolerance is no more than three-thousandths of an inch.

Much of the task of splitting, re-rolling and banding coils is handled automatically but 20-ton rolls require partially manual operations, Lowenstein said. Hardened steel knives are used to cut the coils.

He praised the design of the plant as expediting material flow, and said it will be able to handle 100,000 tons a year in space only 18 1/2 feet greater than the former St. Louis plant, whose annual capacity was 25,000 tons.

At the time of the tour, 4500 tons of steel were on hand at the Madison plant and this is expected to grow to 10,000 and sometimes 12,000 tons. The present staff of 27 is likely to double in the near future, and job applications currently are being taken.

The operations are entirely separate from the other Caine Steel subsidiary, the decorating division, which will occupy the northern section of the plant. It will print multiple colors on individual steel sheets, providing space for future soldering on the sheets and using sanitary lacquers for production of food container interiors. The

lithography line and ovens have not yet been installed.

Lowenstein was assisted in conducting the tour by Madison Mayor Stephen Maerz and by Jack Friedman, Rotary program chairman.

During its luncheon yesterday at the Madison recreation center, the club was entertained with vocal selections by Mrs. Valerie Stevens, school vocal music director; Gail Dandridge, a high school junior; Sharon Oussamer and Deborah Washington, freshmen; Alicia Henderson, an eighth grader; and Sharon Gott, a Louis Baer elementary school student.

Fire Damages Building Today, Loss at \$12,000

Fire caused damage estimated at \$12,000 at an apartment-office building owned by Raymond A. Schaus, 2106 East 24th street, at 1 a.m. today. No one was injured.

Damage included about \$5000 to the large brick building which houses the office of the Servisoft Water Conditioning Co., operated by Schaus, and apartments of his family and of Mr. and Mrs. William Barnhart, Mr. and Mrs. Leonard LeGrand and Mr. and Mrs. Clint Hastings.

Much of the damage was caused by smoke, according to firemen who were on the scene for two hours, and included \$2000 to the contents of Schaus' office and apartment and \$500 to the contents of the other three apartments.

Schaus, father of eight children, rescued one of his children who was sleeping in the apartment. He entered the burning building and carried the child out.

The fire was contained to the basement and front of the building. Cause of the fire was undetermined but it was believed that it started from a cigarette. Firemen said that about 80% of the damage was covered by insurance. They estimated the value of the building at \$30,000.

MORE ABOUT Lake Park

the 50 states in providing space for outdoor recreational, no problem is anticipated in securing federal financial assistance.

Attempts to develop the lake for public recreational purposes have been under way since the early 1930s when a county-wide election was held. The Horseshoe Lake State Park Commission has been active since 1955. Legislation was passed for a park development in 1967 by the General Assembly but was vetoed by former Gov. Otto Kerner.

Area planners note that the lake, if not developed as a state park in the near future, could be taken over entirely by industry and individuals.

In 1965, a study of the lake area was made by the Illinois Department of Business and Economic Development and was termed to have the possibility of being an "outstanding regional and state park," providing not only facilities for boating, fishing, swimming and picnicking, but also for development of camping sites, foot trails and nature study areas.

The Southwestern Illinois Metropolitan Area Plan Commission has been stressing the state park need here for serving a population of 350,000 that is expected to increase to 800,000 by the early 1980s.

RIVER FESTIVAL'S HOME. The huge white canvas tent, 140 feet by 170 feet and 50 feet high, which will house the Mississippi River Festival was raised Tuesday on the Southern Illinois University-Southwestern campus. The tent will cover the stage and custom-made acoustical shell, and also will provide reserved

seating for 1855 people in brightly colored canvas director's chairs. The cable suspension system of the tent eliminates all but two main masts, permitting 10,000 persons seated on the sloping lawn to have an unobstructed view of the stage.

Mississippi River Festival June 20 — July 27

Big league pop, rock and folk artists will abound at Southern Illinois University-Southwestern campus this summer with the opening of the Mississippi River Festival.

Members of the Festival committee kept the young crowd in mind when they planned the six-week program which opens June 20 with the St. Louis Symphony Orchestra in residence.

Nationally-known celebrities will be featured in programs appealing to the most diversified tastes of music lovers in all age groups, ranging from the classical piano styling of Van Cliburn to the current top folk singer, Buffy Sainte-Marie, an American Indian who has appeared on several recent network television shows.

The folk artists will open the pop series on Monday, June 23. The following night the Modern Jazz Quartet will perform. Representing a concern for understatement, the chamber jazz group comprises leader John Lewis, pianist; Milt Jackson, vibraphone; Percy Heath, bass; and Connie Kay, drums.

Phrasemakers call Paul Butterfield's six-man blues band, scheduled for June 25, "Sound and soul—where folk, blues, rock and jazz unite."

Other popular attractions include the King Family on June 30; Janis Joplin Review, featuring country music and blues, July 1; and folk artists Joni Mitchell and Arlo Guthrie, July 7.

Iron Butterfly—four young recording artists with a new sound—will entertain Festival guests on July 10. The sound can best be described by analyzing the name chosen by the group—iron for heavy, butterfly for light, appealing and versatile.

The first folk group to headline at the famous Cocacabana in New York, the New Christy Minstrels have been credited with introducing "Hootenanny" to television. This attraction will play a one-night stand at the Mississippi River Festival on Monday, July 21.

Other top-flight pop artists booked to appear include the Canadian duo, Ian and Sylvia, July 17; Richie Havens, guitarist and folk singer, July 22; and music from the Big Pink—The Band—will perform July 14.

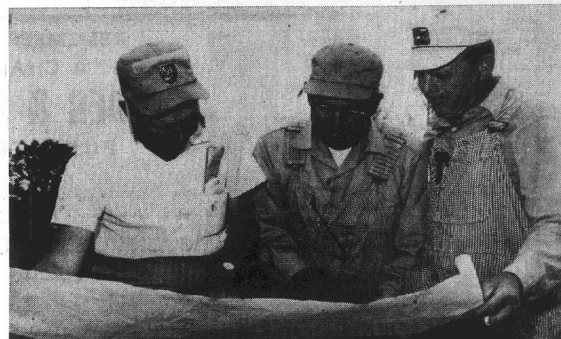

Closing the list of top celebrities July 23 will be the celebrated folk singer, Joan Baez. At her request, ticket prices for her performance will not exceed \$2 for reserved seats. Lawn seating will be \$1.

For those who enjoy classical music, there will be concerts on Friday, Saturday and Sunday evening by the St. Louis Symphony under the direction of Walter Susskind.

Van Cliburn, the popular young pianist, will play with the Symphony July 11-12. Noted for drawing some of the largest crowds in musical history, Van Cliburn won the first Tchaikovsky competition in Moscow and upon his return was accorded Manhattan's first ticker-tape parade for a musician.

Other classic guest artists include Leonard Rose, cellist, who will play at the June 27-28 concert; Itzhak Perlman, violinist, July 3 and 5; and pianist Alicia de Larrocha, July 19.

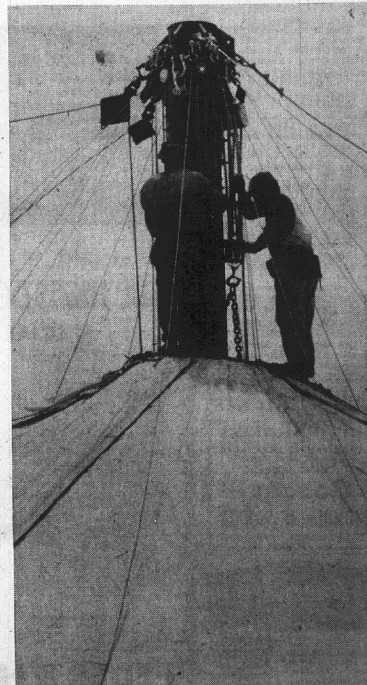

Festival coupon books, containing \$25 worth of tickets, may now be purchased for \$20, at local banks or at SIU-SW. Coupons may be then exchanged for reserved seats at any performance.

FESTIVAL STAGE PLANS are reviewed by three workers who helped build the 108-feet long and 43-feet deep Festival stage that will accommodate a 90-piece symphony orchestra and a 100-voice chorus. The men are, from left—Edward Vaughn, carpenter foreman, Granite City; Cletus Grebel, Edwardsville and Pete Marmon, Collinsville.

MORE ABOUT Construction

tracting firm spokesman said, and will provide full shopping service to residents of the expanding Gailgait Walk residential subdivision areas.

Completion by Jan. 1. Target date for completion of both the new shopping center and Cinema theater has been set for Jan. 1, the company spokesman said.

Plans for the Cinema theater were announced early this year and at that time the builders expressed the hope it could be completed by Thanksgiving this year. It was impossible to get construction under way by mid-February as planned and the new target date has been set.

The theater building will be completely modern in design and will be set off in the front by a mansard-type construction that will house the projection room and equipment. Both the exterior and interior of the building will follow generally the pattern of the St. Ann's Cinema in the Northwest Plaza Shopping Center in St. Louis county.

APARTMENT CONSTRUCTION PROGRESS
Under way on 248 new units being built on the campus of Southern Illinois University-Southwestern. The apartments, some of which are expected to be

ready for occupancy in the fall, are the first housing units to be built on the campus. The apartments are located on the shore of Tower Lake.

Solution to Campus Strife Told to Grads

A time-tested solution to the current strife on college campuses was offered to graduating Edwardsville high school students by John S. Rendleman, chancellor of Southern Illinois University-Southwestern.

He was the speaker at commencement exercises last week.

Rendleman stressed the need for, and validity of meeting social disruption and dissatisfaction with a calm attitude and respect for mankind.

Institutions presently under attack by young people "have survived equally blatant and often more ruthless enemies in the past," he stated. Rendleman emphasized that they have survived not because of strong arms and deaf ears, but because college administrators recognized that the surest way to meet any challenge was with quiet, undramatic courage.

He also pointed out to the students that "hard truths, calmly expressed," would be a more effective means of communication than violence. "Put gently, hard truths pry open an otherwise unwilling ear, while anger and bitterness will only shut it tighter," he added.

The chancellor predicted that young people's rejection of many basic assumptions bequeathed to them by older generations will be a long and painful process. However, he concluded, "We are not helpless. We can calm. We all have some growing to do."

Theme of the 1969 prom will be "It's a Small, Small World," according to Mrs. Robert W. Stevens, choral director at Madison high school. Dinner tables will be decorated with world-globe centerpieces, a red rose and candles.

General chairman is Sharon Leleniewski, with Gail Dunfridge as co-chairman. Other

students in charge of committees include Terry Neidhardt, Sandy Mudrovic, Deloris Wilson, Paula Stephens, Tony Young, James Gardner, Barbara Orr, Connie Piechocinski, Paula Broadway and Danny Osburn.

Talley Is Minister of Music, Youth Education

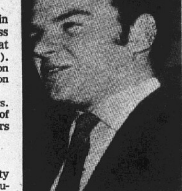

Ramon K. Talley, who graduated with the 1969 class at Bethany Bible College, Santa Cruz, Calif., was chosen by the Student Affairs Committee to appear in the 1969 Edition of "Who's Who in American Colleges and Universities."

The choice was made on each senior's contribution to the college in the area of scholarship and practical activities as well as potential for future success.

Ray, the son of Mr. and Mrs. James C. Talley, 1804 Primrose avenue, attended local schools, graduating from Granite City high school in 1965.

He will be leaving shortly for Modesto, Calif., where he will be minister of youth education and music at Bethel Church in that city.

Mr. and Mrs. James Talley and Mrs. Fred Pieper, 1208 Niedringhaus avenue, returned here during the weekend from Santa Cruz, where they attended the graduation exercises of Bethany College. Their trip included a visit to Yosemite National Park and to various places of interest in San Francisco.

HOMEMAKING AWARD WINNERS at Venice high school for outstanding achievement in the field of Home Economics are left to right—Susan Stern; the teacher, Mrs. Hazel M. Smith; and Linda Devany.

VHS Homemaking Award Winners are Announced

By Susan Stern

To reward outstanding achievement in the field of Homemaking Education, two awards are presented each year to Venice high school students. This is the sixth year Venice high school has participated in the Sterling Silver Homemaking Award program.

Susan Stern was presented with a six-piece place setting of sterling flatware provided by the Sterling Silverware of America, and a trophy furnished by the Proctor and Gamble, called the Crisco Award was awarded to Linda Devany.

The awards programs offer a

year-round project in consumer education and are intended to stimulate student interest in the homemaking arts. Selection of the silver is made by students early in the school year and is on hand throughout the year for use in studying flatware design and construction and buying principles. The program is concluded with the presentation of the silver to the outstanding senior home economics student.

Use Most Tax Money

School districts are, by far, the greatest consumers of tax dollars. Operation and maintenance of school properties, construction of new schools and classroom expansion for a constantly expanding pupil population, along with employment of teachers, custodians and administrators, require more than half the total tax bill paid by Quad-Cityans.

This year, in fact, 60.06 cents of every dollar paid by Granite City tax payers will go to School District 9, while the same district will receive 75.71 cents of every tax dollar paid in that part of Chouteau township included in the district. In

Trees Win Out over Little-Used Sidewalk

Elimination of a sidewalk on the northwest side of Troy avenue, where a motor fuel tax improvement project is under way, was approved Monday night by Granite City council members as Alderman Robertson pointed out the residents wanted to save the trees.

The alderman said the sidewalk is rarely used and that the residents believe saving the trees is more important. The sidewalk is to be eliminated between Michigan and Idaho avenues.

Robertson also called for MFT engineering for improvement to sections of Nameoki drive, Circle drive, Melrose avenue, West Pontoon road and Oakland avenue and for widening Benton street from 27th street to Fehling road.

Objections were raised to the Benton street proposal by Whitmer, who said it could possibly interfere with parking along Wilson Park. Robertson said the project first was approved in 1961 with an allocation of \$60,000. Parmenter added that he wanted no MFT projects to be started in advance of the second

and third phase improvement to Johnson road.

The city's MFT engineer, Kenneth Kieberger, reported that added right-of-way is needed for the Johnson road project between Clark and Franklin avenues where the width now is 37 feet and needs to be 40 feet.

Permission was given Fred Fahnster to place blacktop on 35 feet of an alley at his service station, East 27th street and Nameoki road, where he plans also to blacktop a vacant lot.

Further study is to be made by the police department on parking conditions along Fehling road near the Wilson Park baseball diamonds. Assistant Chief Teller said the initial survey was made last week and no further parking restrictions were being recommended.

Two ordinances for stop signs were approved. The signs are to be located on Lee avenue at 22nd street, and are to replace

yield signs on 17th street at Edison avenue.

Adjustments to signal lights at Nameoki and Pontoon roads were authorized to take them off flashing at 5:30 a.m. instead of 6 a.m.

Referred to Street Supt. Warfield was a letter from Robert Weis, secretary of Bricklayers Local 65, requesting again that the city award contracts for repairs to sewer catchbasins and other related brick work now done by the street department.

In the letter Weis said that if the city fails to resolve the issue, the union will take up the matter with the Illinois Building Trades.

In previous discussions and again Monday night, council members stressed the necessity for the street department to maintain city sewers.

Razing Is Planned
Approval was voted for a \$610 contract with Paul Seebald to raze two buildings at 2330 West 23rd street, and City Atty. Scroggins was authorized to start court proceedings for repair or razing of structures at 2435 Logan street and 2204 Missouri avenue.

Nonn asked City Atty. Scroggins to determine ownership of the building on the southeast corner at 19th street and Delmar avenue where sidewalk repairs are being delayed because the basement extends under the walkway. Nonn is seeking to have the basement filled under the walk.

On recommendation by Atty. Scroggins, the council referred to the Sanitation committee a bill submitted by John Eunice Harper, 3157 Ash avenue, for nearly \$5500 damage to base-

"We're passing the buck on this," Nonn remarked, adding that to authorize the payment would set a precedent that the city could not financially accomplish. "It will be up to the courts," he added.

Assistant City Atty. Harry Hartman's recommendation that the city pay a \$250 out-of-court settlement to Magnus Leisner for damages to his auto on Dec. 10, 1964, was approved. The car was damaged when it slid on old trolley tracks along Madison avenue south of 18th street.

Hartman noted that Illinois Terminal Railroad had settled with Leisner for the same amount.

Placed on file was a letter from Mrs. Mary Fields of East St. Louis requesting summer months sales of candy, door-to-door, by youngsters 10 to 13 years of age to raise funds to attend camps and for other purposes. The program is an under taking of Hobby Plan Inc., of Bridgeton, Mo.

He said the films include a professional quality movie dealing with the habits of the large Grouper fish found more than 100-feet below the surface in that area, and a diving and exploring adventure in the ocean's "blue hole caves" off Andros Island in the Caribbean.

Winters reported that a business meeting for club members will take place at 7 p.m. Tuesday, followed with the film show at 8 o'clock.

GC Steel to Drop Plan to Operate Indonesian Mill

The government of the Republic of Indonesia has been informed that the Granite City Steel International Corp., a subsidiary of Granite City Steel Co., does not intend to accept a proposal to facilitate the completion and operation of an unfinished steel plant near Jakarta.

Nicholas P. Veeder, chairman and chief executive officer of Granite City Steel, said the company had made an extensive survey of the Indonesian steel facilities and what would be required to bring the unfinished plant into production. The company also conducted preliminary negotiations with the office of the Director General of Basic Industries of Indonesia as to the terms of a contract under which the project might have proceeded.

"Completion of the unfinished steel plant would require a substantial investment of capital," Veeder said. "We ultimately decided the project, while it contains elements of real promise, would not be warranted for Granite City Steel."

\$101 less than last year's Impala with comparable equipment.

Match that, anybody.

We give you an honest increase in car at an honest decrease in price. Take the '69 Impala above. We improved the ride. Made it quieter inside. Added an anti-theft locking device. Put steel guard rails in the doors. Still, this Impala with a 300-hp V8, Turbo Hydramatic, advanced design power disc brakes, head restraints, whitewalls and wheel covers is

priced \$101* less than in 1968. The 300-hp V8 is priced \$40 less than last year's 276-hp. Turbo Hydramatic costs less. Power disc brakes about half as much. Whitewalls a little less. Wheel covers about the same. And head restraints are now standard. Upping value and dropping price. That's the way Chevrolet operates.

Putting you first, keeps us first.

30 Street and Alley Lights Ok'd by City

A resolution calling for installation of 30 lights on streets and in alleys was approved Monday night by Granite City council members. Additional lights are to be submitted by several aldermen and are to be included before final preparation of the resolution.

Alderman Parney, who submitted the resolution, questioned the two lights requested for easements and said it was unlikely Illinois Power Co. would carry out the installations. The company has advised the city of its policy not to place lights in easements because of access and other problems.

The resolution was submitted by Parney, as Alderman Claude Green had declined chairmanship of the committee. Mayor Parney named Alderman Steve Basarich as chairman Monday night.

Locations for street lights will be 2012, 1218 and 1314 Granite avenue, 2601 and 2013 Thirteenth street, 1854 Spruce street, 1908 Bremen avenue, 2133 Pontoon road, and 2940 East 25th street.

Alley lights are to be placed at 2904 Oak street, 2032 and 2010 Thirteenth street, 2012 Twelfth street, 2648 Madison avenue, 2656 Lincoln, 2622 East 23rd street, 2641 Edwards street, 2658 East 24th street, 2150 Lee avenue, 2118 Monroe street, 2258 Lee avenue, 2611 Hodges avenue, in the 2600 block alley between East 27th and East 28th streets, 2514 Jerden avenue, 2904 Myrtle avenue, in the alley on Wilson avenue between Myrtle and Buxton and in the alley on Kate street between Jerden and Sheridan avenues.

The basement lights were included for 45 Riviera drive and 2007 Garfield avenue.

Shrine Circus to Open Saturday at Belleville

Ainad Temple's annual Shrine Circus will be held on Saturday, Sunday and Monday at the Belle-Clair Fairgrounds in Belleville, with two shows on Saturday, three on Sunday and the final performance at 8 p.m. on Monday.

Children who have been patients in the Shrine's Burns Institute at Cincinnati will be special guests of Potentate Harry I. Bise at the evening show on Saturday. They will be with their parents and will have special seating arrangements. This was made possible by Edward G. Maag, chief rabbin of Ainad and general chairman of the circus. Seven of these children come from the Illinois metropolitan area and will meet Leo Lippe of Granite City who handles their cases for the Ainad hospital committee.

The \$30 million budget for the 10 orographic hospitals and three burns institutes for 1969, must always be brought to the attention of the Shrine's. Maag said, "It is most important that members of Ainad be cognizant of this fact and work toward giving the helping hand."

Alinad had more than 153 children receiving care in the St. Louis unit last year, and this year it will be even higher. Not one cent is spent by the parents for this care.

One of the largest parades to hit the streets of Belleville will be held Friday night when more than 100 units will line up at 8 p.m. The 15-hour parade will contain all the units of Ainad, those of Moolah Temple from St. Louis, and fraternal and civic groups from the area.

This is the third year for the parade, and more than 25,000 persons will gather to witness the colorful groups. Ralph B. Green, Ainad marshal, will handle the parade, with Chief of Police Paul Kincir of Belleville, and Wesley Roper, Charles Mathes and Norman Ackerman will serve as assistants. The parade will start at 20th and West Main streets, finishing at the opposite side of the town.

Clyde Brothers will again furnish the circus. Their clowns and the ones from Ainad will work the stands to please children. Some of the best animal acts, as well as aerials, and high wire thrillers will help fill the show, to continue more

than two hours. Past Potentate Forrest Creson will serve as master of ceremonies and will start the show with introductions of the Divan of Ainad. Ticket chairman C. G. Chenoweth of Belleville reports that his co-chairman Dick Ervay of Granite City, feels this will be the biggest year on attendance from the way tickets are moving and grounds manager Lawrence Snyder has made plenty of parking space available. The ticket price remains the same, with one adult or two children for \$1.50.

The Circus is one of the personnel.

means by which the 8000 Shrine of southern Illinois help entertain the many unfortunate children in the area. More than 1000 children from various orphanages under-privileged groups and unfortunates will attend with tickets donated by Shrine personnel.

Erosion from Mississippi Cutting Away Shoreline on Venice Riverfront

CRUMBLING SHORELINE along Venice riverfront has created this vast washout about one-quarter mile south of Merchants bridge. The entire water area shown at the right in the photo was once solid land rising to the same grade as the level of the bank at left. The high river stage this spring cut out more than 50 feet of land at this point.

WHITE ROCK at lower center is all that remains of old Rock Dam that once protruded 150 feet outward toward the Mississippi River channel. Some Venice officials believe the destruction of this dam by Army Engineers more than ten years ago resulted in shifting of channel shoreward, intensifying currents that are eating away Venice riverfront area.

EROSION OF RIVER shoreline on Venice waterfront has reached edge of roadway at far left. In the background, the washout has toppled two large trees to a 45-degree angle over road. Engineers say the next high river stage will cut out the road and create a threat of underground seepage at main levee located to left of this view midway between McKinley and Merchants bridges. Part of the McKinley bridge is visible in the extreme upper right.

Engineers Say Erosion No Threat to Bridge Pier

Engineers from the New York firm of Hardesty & Hanover which handle the engineering work for the Venice-owned McKinley bridge are not concerned over a washout of shoreline around the east approach pier of the bridge on the Venice riverfront, Dr. John E. Lee, mayor of Venice, reported today.

Representatives of the firm made an inspection tour of the riverfront area to inspect the cutting away of large sections of land along the shoreline as a result of high river stages last spring. The river action washed considerable land away from the pier which once stood completely on land, but now stands partly in the river.

Mayor Lee said the engineers felt the river action had in no way damaged the pier and in no way poses a threat to the safety of the bridge structure. The U.S. Army Corps of Engi-

neers is preparing plans to award contracts for the repair work of the riverfront to correct the erosion problem which was more serious this year than at any time in the last decade.

In some spots along the riverfront between McKinley and Merchants bridges, large sections of shoreline were washed out in 100-foot loops. Midway between the two bridges, wash-

outs have reached the roadbed which skirts the riverbank.

GC Precinct Remap Meeting is Planned

A meeting is being scheduled for this week with Township Supervisor Nelson Hagnauer by the Special Redistricting committee of the Granite City council.

Chairman Paul Rutledge told council members Monday night he plans to submit new city ward maps to the supervisor with the request that township precinct boundaries be revamped to conform to the wards.

The remap has been under study for several months and was renewed following the confusion that resulted from the

April 1 city-township city election. "This is the month it should be done, and I understand Hagnauer is planning some revision to township precincts," Rutledge said.

Terry Rochester, 2628 Madison avenue, was struck in the face and on the head by an unidentified assailant at 6:30 p.m. Sunday as he was entering Mary's grill, 20th and Iowa streets, his mother reported at 1 p.m. Monday.

Social Security Answers

Answers to most-often asked questions on Social Security are being provided by Ralph Braher, district manager of the Social Security Administration. Quad-Cityans with questions may write Braher at 650 Missouri avenue, Room 104, East St. Louis, Ill. 62201.

Q. What can I do if I can't pay the amounts that Medicare does not pay—the first \$44 of my hospital bill, for example; or the first \$50 of my doctor bills?

A. You may want to visit your local welfare office to find out about help under a State program such as Old Age Assist-

ance or Medical Assistance, often called Medicaid.

Q. How can I find out if a hospital, extended care facility, or home health agency is participating in Medicare?

A. You can ask the people at the institution or agency, or you can ask at any social security office.

What happens if I use up my 90 days of hospitalization under Medicare before I am well enough to leave the hospital?

A. You have a lifetime reserve of 60 days. Your lifetime reserve is like a bank account of 60 extra hospital benefit days. You can use your lifetime reserve days after you've used up the 90 hospital days which you get in any benefit period. However, once you've used any of your lifetime reserve days, the total left for you to use is permanently reduced. In other words, if you use two of your lifetime reserve days, you have 58 left for the future.

100 GC Youngsters to View Shriner's Circus

For the third consecutive year, local Shriners will treat 100 youngsters from the Kirkpatrick Homes to a performance at the annual Airmat Shrine Circus, which starts this weekend at the Belle-Claire Fairgrounds in Belleville. The trip will be made Saturday by chartered buses.

Boys and girls in the fourth, fifth and sixth grades residing in the local housing project who have not yet registered for the circus outing may do so today and tomorrow at the public housing office in the Kirkpatrick Homes. Space on the buses and tickets are allocated on a first-come, first-serve basis.

C. A. "Bud" MacMillan, Co-ordinated Youth Service executive director, who is helping to coordinate the trip, said today that Wallace Holton, a local Shriners, is primarily responsible for arranging the special treat each year.

Also assisting in the project are David Morgan, Edward Branding and Vernon Thompson.

Shrine Circus performances will be presented Saturday, Sunday and Monday in Belleville. Proceeds are used to support the Shriner Crippled Children's Hospital and the Burns Center Clinic.

GC Council OKs Purchase of 3 Insect Chemicals

The "double-dose" insect spraying in Granite City will start with delivery of a supply of necessary chemicals, it was agreed upon during Monday night's council session.

A contract with R&H Spraying Service of Granite City to spray with a water-base chemical was authorized for the mayor's signature. The 55-gallon drum of the chemical at \$8.15 a gallon is to be purchased from the Eckmann Co. of Collinsville.

Under the contract, the private firm will operate a minimum of 20 hours a week for a three-week period to determine if the system is more effective and economical than the city's insect fogging machines.

With only a four-day supply for the city machines, the council authorized Street Supt. Wardfield to purchase another 55-gallon drum.

Also authorized was purchase of 10 gallons of a special larvicide chemical to be sprayed into catchbasins and on low, wet areas. It will cost \$3.50 a gallon.

Allderman Dallas, chairman of the Sanitation committee, said the contract sprayer, whose fee is \$15 an hour, with the city to provide the chemicals, is to be assigned in areas without alleys. "The machine can cover a wider area, and we'll know the results if there is a certain area sprayed," he told the council.

Several aldermen with wards having alleys said they preferred the city foggers.

GC Sewer Break Costs Could Hit Half-Million Dollar Mark

After hearing a report on the continuing breaks in Nameoki area sanitary sewers, Granite City council members Monday night voted for repairs to be started at the 10th break discovered last week on Amos avenue at Franklin avenue and authorized the city engineer to seek bids for closed circuit television inspection of the collapsing lines.

The council only last week gave approval to A. H. Seebold to repair the break on Fehling road under a cost-plus contract, and the firm was awarded the contract for the Amos avenue break.

High costs for sewer break repairs, noted with a \$40,000 expenditure for one break in the 2500 block of Lynch avenue, is reflected in the \$109,417 expended in the 1968-69 fiscal year for sewer maintenance, including \$50,000 for sewer break repairs.

The bill list approved Monday night added another \$63,783 to the sewer repair cost, boosting the total to \$153,500. The cost could go to a half million dollars.

Repair Costs for May
The bills for May paid to A. H. Seebold included \$44,465 for the break at Amos avenue and Fair Oaks drive, and the remaining total for equipment rates at East 23rd and Edna streets, North street, the 2500 block of Waterman avenue, two breaks in the 2500 block of Lynch avenue and the break in the 3200 block of Fehling road.

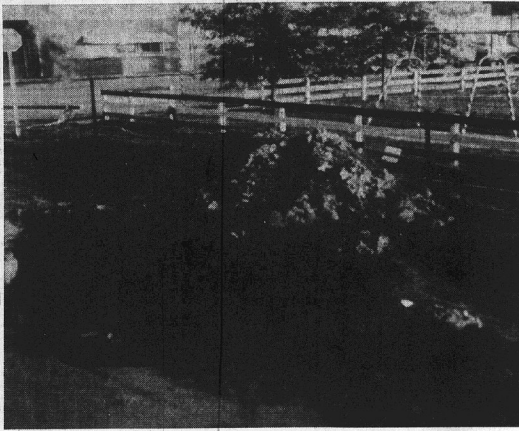

City income from a special sewer maintenance tax last year amounted to \$22,420, and \$81,000 was transferred to the account from the sales tax reserve and working cash fund. The city will be required to pay back the working cash fund.

In an effort to stem the mounting outgo of the city's dwindling reserve funds, Mayor Partney called for street improvement projects to be carried out with motor fuel tax funds rather than general funds.

Street Projects
Monday night, the council voted for an additional expenditure of general funds for resurfacing Washington avenue from 24th to 27th street, the 2400 and 2500 blocks of Grand avenue and the 2100 block of Benton street.

"These are all arterial streets and motor fuel tax funds could be used rather than the general fund," Partney pointed out, stressing that every available penny will be needed to repair broken sewers and to carry out a program to prevent further breaks.

Alderman Poulos called for

SEWER BREAK NO. 10—on Amos avenue at Franklin avenue where the street department almost lost a truck last week. Repairs to the break were authorized Monday night by Granite City council members.

the contract signing for the three resurfacing projects Monday night, after learning from the mayor that the \$24,000 contract had been signed for the special improvement work last week.

Poulos asked for the projects to be included as special improvements in the new budget and then presented a motion for the mayor to sign the resurfacing contract that has been held in abeyance since last September.

Vote on Expenditures
Opposed to the use of general funds for the work were Aldermen Rutledge, Whitmer, Jarrett and Boker. The vote was 11-to-4. Alderman Davies was absent on vacation in Mexico.

Prior commitments for motor fuel tax funds, such as continuation of the Johnson road improvement at an estimated cost of \$160,000. Last year, the city spent \$433,225 on MFT projects. Additional requests for MFT expenditures were made Monday night by Alderman Robertson for initial engineering to be carried out for improvement of sections of Nameoki and Circle drives and Melrose avenue.

West Pontoon road and Oakland avenue, as well as for the widening of Benton street from 27th street to Fehling road.

Alderman Nomm, who has been seeking improvements to Rock road, West 29th street and Niedringhaus avenue as major access roads and streets for Fed-

eral Aid Route 151 (the Great River Road), verified that they are arterial thoroughfares and would qualify for MFT funds for improvements.

"Perhaps we can get the state to do those jobs on a 60-10% basis," he remarked.

Sewer Break Proposals
City Engineer Kenneth Kieberger of Research Planning & Design Associates was called upon by Mayor Partney to report on progress toward a recommendation for a program to prevent further sewer breaks.

Kieberger said he had a telephone report from a Minneapolis firm that specializes in televising and sealing sewer lines, and that he would recommend getting prices from other firms. He was authorized to have bids available for the next regular council session on June 16.

"I hope we don't have too many more breaks before then," Mayor Partney commented, adding that he had been hopeful a recommendation would have been ready for Monday night's session.

The engineer replied that he was awaiting a detailed report from the Minneapolis firm. He said the telephone information brought out the difficulty in having access to clean the Lynch avenue sewer before running the television camera through.

"I also was told the line is a half to three-fourths filled with sand between Stearns avenue and Maryville road and that there are leaks in many of the manholes. Also no trace has been found of any joint compound," the engineer stated.

He added that along the St. Clair line, which was given a preliminary inspection by the firm, the present 18-inch line now serving 600 homes is running full, with one to three inches of sand in the pipe.

Kieberger noted the line should have a capacity for another 500 homes, and the source of outside water has not been located. To replace it with an 18-24-inch line would cost \$100,000 to \$150,000, he estimated, adding there would also be dewatering costs.

"The big problem is dewatering and the infiltration and the presence of sand it is obvious there are cracks. Possibly this might be caused by improper use of the jet water cleaning system of the street department," the engineer said.

Street Supt. Warfield commented the machine is being used properly and would not cause problems at the pipe joints.

Cost of Inspection
The engineer reported that televising the Lynch and St. Clair avenue sewer lines would

mended the council consider a higher tax rate for sewer maintenance to cover the costs.

In a budget proposal submitted to the council last week by Mayor Partney, the mayor proposed a total of \$335,776 for sewer maintenance, compared to \$75,000 budgeted last year. The mayor specified \$300,000 for repairs.

Another possible expense for the city was outlined by Moerlen during Monday night's session. He pointed out the downtown retailers who developed an off-street parking lot in the 1800 block of Edison avenue at a cost of \$40,000 are requesting the city to pay the cost under an agreement made last year.

Moerlen said he could find no record of the agreement. He asked City Atty. Scroggins to look into the matter and determine the legality of the purchase—possibly from parking meter funds.

Parking Lot Costs
The alderman explained the city could pay for the lot in 10 years at a cost of \$39,217 (\$444-a-month), or over 15 years for \$41,787 (\$332-a-month). The city under an agreement with the retailers installed meters and vandal lights on the paved lot. The 10-cent-an-hour meters are averaging an income of \$106-a-month, Moerlen said—an amount insufficient to cover the payments in the 10-to-15-year period.

During a caucus session last week, it was brought out the retailers had borrowed money

from the Granite City Trust & Savings Bank to tear down an old auto parts shop and improve the lot. It also was brought out the downtown businessmen are subscribing to a development program for the downtown business district.

"We have a moral obligation on this lot, but I don't know how far we can go. That's why I'd like for the city attorney to look into the matter," Moerlen said.

Nomm remarked that the downtown merchants should assume some of the responsibility and that he doubted the \$40,000 value placed on the lot. He suggested the city attorney could work out a compromise.

Pump Station Repairs
Continuing with a financial report, Moerlen said the mayor's budget set up only \$6000 for the city pump station, located at the Army Depot.

"We have been advised the station is out of service and needs to be rebuilt at a cost of \$10,000. The city's share of this cost is 65%, and the mayor's budget does not cover this."

"The amount should be increased before the budget is adopted," Nomm asked that the budget for the city hall be increased to include painting the exterior trim.

No further budget sessions have been called. Moerlen advised the council last week that he would be departing on vacation. A caucus session last week was attended by nine aldermen, and no effort was

made to go over the budget proposal submitted by the mayor. In other financial action, the council voted down a bill presented a second time by Kittle Reporting Co. for \$97 to record a hearing called by Mayor Partney on March 31 in the case of E. R. "Pat" Rich that was instituted prior to the April 1 city election on a complaint of reported conflict of interest. The circuit court case still is pending. The vote by the council was 8-to-9 not to pay the bill.

James Harsh, manager of Paddlers, Inc., swimming pool, announced today the swim lesson program, which is open to the public as well as members, will begin next Monday at the pool, 2121 Johnson road.

Advance registration is requested but late registrations will be accepted, if classes are not filled on opening day. Swim instruction will be given six days a week for a five-week period, but a student will attend classes only twice a week.

Cost per child, if a member will be \$7.50 and to include the summer family membership. Cost to non-members will be \$12.50.

The competitive swim team will begin work out on Monday under the leadership of Stanley Holland of Webster Groves. Only children of members are eligible to compete. More information is available at the pool office.

Repairs to streets torn up by construction of the city's \$8,000,000 storm sewer system are to start within a few days and replacement of curbs is to be accelerated within two weeks, Granite City council members were advised Monday night.

In a letter to the council, M. E. Wilson of S. M. Wilson & Co. said that repairs to streets have been delayed by frequent and heavy rains but that the work is to be carried out as quickly as possible.

"We realize," Wilson said, "that the aldermen are being subjected to numerous complaints and we assure you that we are as anxious to get all of the areas fully completed and restored as citizens are. A couple of weeks of dry weather, and the memories of the extremely frequent rains are quickly forgotten."

Work Nearly Finished
"The storm sewer mains, other than in Kirkpatrick Homes, will be completed very shortly, but the aldermen should realize also that continued interruptions of traffic will occur at about 30 intersections while final tie-ins are made."

"It should further be realized that we are delayed in replacement work because it is necessary for us to wait until the Illinois Power Co. and the East St. Louis & Interurban Water Co. complete their replacement and re-routing work at and near the intersections," the contractor stated.

An alderman noted that a water line had been broken on Monday during a tie-in operation at 22nd street and Edison avenue.

Alderman Rutledge, chairman of the Special Sewer Committee, added he has learned the contractor is obtaining bids for the street and curb repair work.

Water In Ditches
In answer to a council query, the contractor advised the aldermen to confer with the de-

sign engineer on the complaints that water is standing in the open ditches. "This is beyond our control and beyond the scope of our responsibility," he added.

Rutledge called for a meeting of a representative of the contractor and the project engineer with Park Supt. Harold Brown on plans for restoration of the 24th and 27th street parkways where storm sewers were installed.

In a letter from Randall Robertson, park board attorney, the council was advised that

while grading is nearly completed, the replanting or sodding of the area has not been done "and due to the lateness of the season, the park commissioners feel that any seeding of these areas at this late date may not be productive of any kind of grass growth."

Robertson suggested that it could be resolved at the conference what steps are to be taken and that the park district might ask that funds be set aside to correct any subsidence that may occur hereafter," the attorney stated.

Rutledge called for the conference to be arranged as quickly as possible in compliance with the park commissioners' request.

GCHS Leadership Club Holds Outdoor Trip

Twenty-six members of Advanced Leadership Club of Granite City high school attended the recent annual outdoor education trip, at the St. Louis YMCA Camp, Trout Lodge, on Lake Sunnen near Potosi, Mo.

Expenses were defrayed for the trip by group projects such as community work days, book covers, sales, and checkroom services provided for all community affairs held at the high school cafeteria.

The purpose of the club, directed by Miss Barbara Kerch, is to give high school girls experience in a variety of activities that will prepare them to execute civic and recreational leadership responsibilities as adults living within the community.

The outdoor education project has been an annual project of the club for more than 15 years.

Sheepskins are one of Illinois' best crops.

Higher education is one of the real "growth industries" in Illinois Power territory today. Our energy runs laboratories, heats dorms, illuminates stadiums and supplies the "midnight oil" for more than 50,000 students at 19 college and university campuses.

In the past 10 years, the growth in our college population has equalled the size of a small city. We started planning and building to handle this increased demand for energy when today's graduates were still in Little League. (Some of us may have coached their teams, too).

Not even our long range planners know what the future holds. But we do know that Illinois Power will be ready to meet the demands for energy anywhere in our territory when the graduates of 1979 get their sheepskins.

"Don't Gamble With Your Future"

ATTENTION: HOMEOWNERS & HOME BUYERS—"DON'T GAMBLE WITH YOUR FUTURE." "YOU" cannot afford to trust the purchase or sale of your home (perhaps the biggest deal of your life), to anyone but a REALTOR. A REALTOR is a PROFESSIONAL BUSINESS MAN who has earned the right to be a member and who subscribes to the rigid rules and regulations of the Local, State and National Real Estate Boards of America. A REALTOR must earn his living only in the PROFESSION OF REAL ESTATE. He must maintain a full time business office (apart from his home) and he cannot employ part-time untrained salesmen or other unlicensed personnel. He cannot work or be employed part time in any other industry. A REALTOR is pledged to observe a very strict CODE OF ETHICS in the handling and servicing of every Real Estate transaction. A REALTOR is further governed by a strong PROFESSIONAL STANDARDS COMMITTEE composed of several of the most respected members within the Local Real Estate Board. This Committee has the authority to discipline, fire or dismiss any fellow member who violates the CODE OF ETHICS in business practices with the public. Further, any Homeowner or buyer may file a complaint or grievance against any Realtor for a private hearing before the PROFESSIONAL STANDARDS COMMITTEE. A REALTOR may not use false or misleading advertising. A REALTOR must not persuade, coerce or influence a client to accept a bad deal in order to make a quick and easy commission. Such deals may leave the client with very little more or impose heavy financial burdens impossible to cope with. A REALTOR is required by law and does, keep all the client's monies in a SPECIAL ESCROW BANK ACCOUNT, and is forbidden to use or co-mingle any part of these funds for personal use.

NOTE: (Records show many violations of this law.) 4-Point Policy Established For Conduct in State Parks

The Department of Conservation has adopted a four-point policy to make state parks and recreational areas more enjoyable and safe for the Illinois citizens who use them.

In announcing the policy, Director of Conservation William L. Rutherford pointed out that "increased instances of rowdiness in state parks and recreational areas made it necessary for the department to adopt this policy."

Gov. Richard B. Ogilvie has approved the measures. The policy covers the following points:

1. It prohibits the consumption of all alcoholic beverages in conservation operated areas with the exception of beer. It limits the consumption of beer to those persons of legal age (21).
2. It requires the registration, in advance, of all large groups

planning to use camping or picnic facilities in state operated parks or recreational areas.

3. It requires that groups of minors have adequate supervision, and recommends that at least one adult accompany each group of 15 minors.

4. It directs park rangers to close parks and areas within parks, such as camp grounds or picnic grounds, to additional users when the number of persons using these facilities exceeds the posted capacity limits.

"These regulations will be strictly enforced by park rangers," Director Rutherford said, "and every effort will be made to insure the safe, enjoyable and maximum use of our state parks."

"Details regarding the pre-registration of large groups will be announced as soon as they are finalized," he added.

Jaycees Miss GC Fete is Set for June 14

The annual quest to discover the most attractive, poised and talented young woman to represent the local community in the Miss Illinois contest will take place at 8 p.m. Saturday, June 14, in the auditorium of Granite City high school.

The Miss Granite City Pageant—the first step on the ladder to fame and fortune via the coveted Miss America crown—will be presented once again by the Granite City Jaycees. Contestants will be sponsored by local business firms.

"Eight attractive candidates will compete in the 1969 beauty-talent extravaganza," Richard "Bruno" Domitrovich, general chairman, said today.

1969 Contestants
The 1969 contestants are: Miss Janice Beth Chandler, daughter of Mr. and Mrs. Leonard (Mildred) Chandler, 2004 Dogwood drive; Miss Jackie Ann Idom, daughter of Mr. and Mrs. Earl (Loretta) Idom, 2300 Marshall avenue; Miss Patricia L. Kinkel, daughter of Mr. and Mrs. Lester (Martha) Kinkel, 2821 Forest avenue; Miss Linda Kutosky, daughter of Mr. and Mrs. Joseph (Helen) Kutosky, 2863 Washington; Miss Denise Cecile Madrid, daughter of Mrs. Anne Madrid, Box 1285, Rural Route One; Miss Constance Lynn Rotter, daughter of Mr. and Mrs. Robert (Abby) Rotter, 2433 Pine street; Miss Laureen Kay Shelton, daughter of Mr. and Mrs. Cecil (Helen) Shelton, 3100 Edgewood drive; and Miss Doreen Carolyn DeWitt, daughter of Mr. and Mrs. James P. DeWitt, 1536 Lindell Blvd.

Richard Dawdy, GC Jaycee president, said that 15 prospective candidates and a number of parents participated in an informational meeting last week, held in the conference room at Granite City Trust & Savings Bank. So far, the eight listed above have registered to compete in this year's pageant.

An orientation session, to which parents of contestants again were invited, and the first rehearsal got under way Tuesday evening at the Jaycee clubhouse on Poplar street. The final dress rehearsal will take place next Thursday in the high school auditorium.

Domitrovich said today that plans are being completed for contestants to appear in a motorcade at 6 p.m. Friday, June 13.

Candidates are to be interviewed by pageant judges at "Judge's Tea," on Saturday afternoon—the day of the contest—at the Rose Bowl restaurant.

The Miss Granite City Pageant is open to the public and tickets, costing \$1 for adults and 50 cents for children, may be obtained in advance from Jaycees and Jaycette members, the contestants, or may be purchased at the door the evening of the show.

Contest Requirements

To be eligible for the annual beauty-talent show, a candidate must be between the ages of 18 and 28 on Sept. 1; a high school graduate by the same date; and must never have been married.

Prospective candidates must possess talent, either trained or potential, which may include playing a musical instrument, dramatics, dress designing, singing or any of the fine arts.

If she wishes to pursue a professional career, such as nursing or teaching, she may present a three-minute talk on her reasons for selecting such a career, or describe her training to date and her aims in that profession.

Winner of the Miss Granite City Pageant will receive a \$200 scholarship from the Pepsi-Cola Bottling Co., Alton, and gifts from local merchants and the Jaycee organization.

Miss Granite City will then compete against successful candidates from other local contests at the Miss Illinois Pageant, a week-long affair scheduled to be staged in mid-July at Aurora.

The victor in the state competition, in addition to winning the right to try for the Miss America crown at Atlantic City, N. J., in September, will receive scholarship awards and gifts amounting to nearly \$4000. A total of \$400,000 in scholarships is awarded annually in local and state contests. Of this amount, at least \$250,000 is contributed by the Pepsi-Cola Co. and its 550 bottlers.

A further \$200,000 in scholarships provided by civic-minded individuals and industrial organizations are offered at local and state pageants.

Each year, more than \$40,000 in scholarship grants are awarded at the national finals, ranging in value from \$10,000 received by Miss America, to \$1000 prizes for semi-finalists.

Runners-up receive \$5000, first \$2500, second \$2000, third, and \$1500, fourth runner-up.

Additionally, \$1000 grants are presented in the Miss America Pageant to the contestant selected the most talented dancer, most talented singer, most talented musician, most talented in all other fields (two scholarships), Miss Congeniality and all preliminary winners not included in the other award categories.

Biographical sketches are presented in this issue on four of the eight contestants. The same type of information on the remaining four candidates will be published Monday.

GC Seabee Revisits Vietnam Hospital Site

Granite Cityan, George Michael "Mike" Nesbit, had a pleasant lay-over at Danang while enroute by plane to Dong Na, Vietnam, his family here has learned.

Nesbit, 24, son of Mr. and Mrs. Thomas Nesbit, 2807 Warren avenue, is on his second tour of duty with the Seabees, and on the return visit to Danang was given an escorted inspection tour of a children's hospital on which he supervised basic construction.

In an article that appeared in "The Seabees," an overseas newspaper published by Seabees Mobile Construction Battalion 62, it was pointed out that Nesbit supervised the start of the hospital last year.

He supervised about 30 Vietnamese workers who were paid \$18 a week in addition to being given the scrap lumber. He expressed interest in the technique the Vietnamese used in laying brick. Unlike the American method, the Vietnamese hold a brick in place and stuff mortar around it.

Nesbit, who is 24 and the husband of the former Charlotte Ann Stadler, is a 1962 graduate of Granite City high school. He first worked for A. O. Smith Corp. and then began working in the construction field. He joined the Seabees in 1967.

To be a Seabee is possibly natural for Nesbit. His father was a Seabee during world war II and was assigned to St. Louis after returning from Guadalcanal.

During his current deployment, the younger Nesbit is working with a concrete crew at a rock crusher near Cam Lo.
